Ralph Lauren and Epic Games Debut A Groundbreaking Fortnite Partnership

The iconic Polo Pony logo is reimagined for the first time in the Company's 55-year history

NEW YORK, NY – OCTOBER 31, 2022 – (NYSE:RL) Ralph Lauren and Epic Games, the creator and publisher of the globally popular online game Fortnite, today announced a groundbreaking convergence of two culture-defining brands. The partnership will debut a digital apparel and accessories collection launching in the Fortnite Item Shop, as well as a physical apparel capsule – inspired by the digital-first collection. For the first time in Ralph Lauren's five-decade history, the Polo Pony – one of the world's most iconic logos – has been specially redesigned to commemorate the collaboration with Fortnite, a testament to the Company's belief in the power of the metaverse.

In a first for Ralph Lauren, the collection was conceived as a digital-first capsule, creatively influenced by a gaming design aesthetic. The digital Outfits showcase Ralph Lauren's signature artistry and craftsmanship, rendered in high fidelity with incredibly rich detail, while the physical capsule collection translates the Outfits into the real world. Underlining this interplay between digital and physical, the Boot will come to life as a replica of the digital version shown in the Fortnite Outfits, and will be available in the coming months.

"Ralph Lauren has always designed dreams and created new worlds, and today, our collaboration with Fortnite will deliver a groundbreaking experience to a new community of next-generation players and consumers. Our partnership represents a completely fresh take on the Ralph Lauren brand – designing for the metaverse first – that is thoroughly focused on the future. We are excited to continue to lead digital exploration, building on our decades-long track record of pioneering innovation," said David Lauren, Chief Branding and Innovation Officer at Ralph Lauren.

"Authentically expressing yourself is core to the player experience inside Fortnite," says Adam Sussman, President at Epic Games. "Ralph Lauren's iconic 'Polo' design history together with the powerful

versatility of Unreal Engine and the unmistakable style of Fortnite have resulted in an inspired campaign and timeless looks that Fortnite players worldwide are sure to love."

In celebration of the launch, Ralph Lauren will host a series of activations to authentically engage the gaming community, including a Twitch livestream launch event, and will be the first luxury brand to cohost a player tournament in Fortnite.

The collaboration builds on Ralph Lauren's long track record in digital innovation and storytelling. From pioneering one of the first brand e-commerce sites more than 25 years ago, to more recently delivering immersive virtual experiences using augmented reality and launching unique digital products, Ralph Lauren is pushing the boundaries of what it means to develop dynamic new worlds both in real life and online.
